

# Architecture Side Hustle Checklist.

## Passive Income & Side Hustles Ideas

### ✓ 1. Create Online Architecture Courses

There is a huge range of online architecture courses, from basic drawing techniques to rendering and CAD tutorials. Alternatively, you may develop a website to discuss specific architectural topics in a specific area of your online architecture course.

### ○ 2. Start a YouTube Channel

Find a niche area or topic of architecture you are passionate about, this would help create a unique architecture youtube channel and be an ideal starting point to get creating video tutorials.

### ○ 3. Write an E-book

There is no start-up cost in writing your own e-book. This can be enjoyable if your e-book is related to an architecture topic you have mastered or are interested in researching.

### ○ 4. Sell Digital Architecture Assets Online

Another digital marketplace is Gumroad, on this platform you are able to sell all types of digital products, not just 3D models.

### ○ 5. Sell Freelance Design Services Online

Selling design services online allows the flexibility to pick and choose your jobs and is a great way to earn passive income.

### ○ 6. Freelance CAD Drawings

CAD work is a common side hustle for architects as using CAD is second nature to architects and drafting floor plans etc. Insurance is extremely important.

### ○ 7. Freelance Design work

Don't bite off more than you can chew, stick to small projects such as ground-floor house extensions for a private client. Consult your Architects Pocket Book to ensure you are using standard sizes, heights and wall thicknesses.

### ○ 8. CGI renders

A lucrative side hustle for architects to make money is by providing a 3D rendering service. There is a big demand for CGIs (renders) from the construction industry.
